- 5.1 We are required to have arrangements in place to manage conflicts of interest between us and our clients and between different clients. We operate in accordance with a conflicts of interest policy we have put in place for this purpose in which we have identified those situations in which there may be a conflict of interest, and in each case, the steps we have taken to manage that conflict. Our Conflicts of Interest Policy is available to view or download on our website.
- 5.2 We are not obliged to disclose to you or take into consideration any fact, matter or finding which might involve a breach of duty or confidence to any other person, or which comes to the notice of any of our directors, officers, employees or agents but which does not come to the actual notice of the individual or individuals dealing with you.
- 5.3 You accept that we may (i) have interests which conflict with your interests or (ii) owe duties which conflict with duties which would otherwise be owed to you, and you consent to our acting in any manner which we consider appropriate in such cases subject to FCA rules and regulations.

6. Best Execution

- 6.1 We have a duty to provide Best execution for you and we will take all reasonable steps to achieve this taking into account the execution factors. The factors we will consider are those which will allow us to obtain the best possible result in terms of total consideration (price and costs of execution) in accordance with the Rules of the FCA. In order to obtain the best outcome for you we will use the best trading venue from the list of venues we have elected to use. We will add or delete Venues in accordance with our obligation to provide you with the best possible outcome.

Our Order Execution Policy and a list of Execution Venues can be obtained on request or by accessing them at <https://newhorizon-global.com/>

- 6.2 Should you provide specific execution instructions to us, this may prevent us from taking the steps that are necessary to achieve the best possible result in respect of the order to which the instructions relate.

7. Risk Warnings – General

- 7.1 Retail Clients are afforded greater protections under these rules than other Clients and you should be aware of your rights of access to the Financial Ombudsman Service and cover available under the Financial Services Compensation Scheme. Please remember that the price or values of investments can go down as well as up. You may not get back the amount invested,

the use of leveraged products can result in loss greater than the sum invested. Past performance is not necessarily a guide for future performance.

- 7.2 Foreign markets will involve different risks from the UK markets. In some cases the risks will be greater. On request, New Horizon Global Advisory Ltd will provide an explanation of the relevant risks and protections (if any) which will operate in any foreign markets, including the extent to which we will accept liability for any default of a foreign firm through whom we deal. The potential for profit or loss from transactions on foreign markets or in foreign denominated contracts will be affected by fluctuations in foreign exchange rates.
- 7.3 We may enter into transactions on your behalf in non-readily realisable investments (investments in which the market is limited or could become limited). Non-readily realisable investments can be difficult to deal in and it can become difficult to determine a proper market price for them. Please inform us on the Account Opening Form if you do not wish us to buy such investments for you.
- 7.4 There is an extra risk of losing money when shares are bought in some smaller companies including penny shares. There is a big difference between the buying price and the selling price of these shares. If they have to be sold immediately, you may get back much less than you paid for them. The price may change quickly and it may go down as well as up.
- 7.5 Under certain trading conditions it may be difficult or impossible to liquidate a position. This may occur, for example, at times of rapid price movement if the price rises or falls in one trading session to such an extent that under the rules of the relevant exchange, trading is suspended or restricted. Placing a stop-loss order will not necessarily limit your losses to the intended amounts, because market conditions may make it impossible to execute such an order at the specific price.
- 7.6 On many exchanges, the performance of a transaction by your firm (or third party with whom he is dealing on your behalf) is guaranteed by the exchange or clearing house. However, this guarantee is unlikely in most circumstances to cover you, the customer, and may not protect you if your firm or another party defaults on its duty to you. On request, your firm must explain any protection provided to you under the clearing guarantee applicable to any on-exchange derivatives in which you are dealing. There is no clearing house for traditional options, nor normally for off-exchange instruments, which are not traded under the rules of a recognised or designated investment exchange.
- 7.7 In the event of New Horizon Global Advisory Ltd's insolvency or default, or that of any other brokers involved with your transaction, this may lead to positions being liquidated or closed out without your consent. In certain circumstances, you may not get back the actual assets, which you lodged as collateral and you may have to accept any available payments in cash. On request, New Horizon Global Advisory Ltd must provide an explanation of the extent to which it will accept liability for any insolvency of, or default by, other firms involved with your transactions.
- 7.8 If New Horizon Global Advisory Ltd trades in Alternative Investment Market (AIM) or another small cap market listed shares, all of which may carry a higher degree of risk than London Stock Exchange listed shares, there is always the possibility of losing the capital sum invested. Investment should be restricted to the maximum one can afford to lose. These investments may not be suitable for everyone and if you have any doubt regarding suitability please contact your regular investment adviser. It is more difficult to buy and sell shares in small companies and it may not always be possible to deal. Market Makers operate with a wide spread between buying and selling prices for small companies and this spread and fluctuations in the share price may mean that you do not get back the full amount invested. AIM and small cap markets are designed primarily for emerging or smaller companies. The AIM is less demanding than those of the Official List of the London Stock Exchange. The past is not necessarily a guide to future performance.

8. Securities Subject to Stabilisation

- 8.1 This statement complies with FCA rules. New Horizon Global Advisory Ltd may from time to time carry out transactions in securities on your behalf, where the price may have been influenced by measures taken to stabilise it. You should read the following explanation carefully.

- 8.2 Stabilisation enables the market price of a security to be maintained artificially during the period when a new issue of securities is sold to the public. Stabilisation may affect not only the price of the new issue but also the price of other securities relating to it. The FCA allows stabilisation in order to help counter the fact that, when a new issue comes onto the market for the first time, the price can sometimes drop for a time before buyers are found. Stabilisation will be carried out by a stabilisation manager" (normally the firm responsible for bringing a new issue to the market). As long as the stabilisation manager follows a strict set of rules, he is entitled to buy back securities that were previously sold to investors or allotted to institutions, which have decided not to keep them. The effect of this may be to keep the price at a higher level than it would otherwise be during the period of stabilisation.
- 8.3 The Stabilisation Rules limit the period when a stabilising manager may subsidise a new issue; fix the price at which he may stabilise (in the case of shares and warrants but not bonds); and require him to disclose that he may be stabilising but not that he is actually doing so. The fact that a new issue or a related security is being stabilised should not be taken as an indication of the level of interest from investors, nor of the price at which they are prepared to buy the securities.

- 9.1 Our charges will be in accordance with the fee schedule set out in a separate Investment Management Agreement in effect at the time the client onboarding.

You may be subject to separate and additional charges which may form parts of the Terms of Business of a product provider. You must consult provider agreements such as Dolfin Financial Ltd (Dolfin) or Saxo Capital Markets Limited (SCML).

- 9.4 If we should enter into a transaction on your behalf using the London Stock Exchange SETS trading system or any other trading system which imposes any liability on us (in whatever capacity) we reserve the right to make additional charges to reflect the additional risk we are incurring including (without limitation) a mark-up or mark-down on the price of the investment concerned (that is at a premium or discount to the amount at which we will actually purchase or sell the investment concerned). Should we do so you will be notified at the time and details of any additional charges will be shown on the contract note issued to you.
- 9.5 In addition to paying any commission and charges due to us you will reimburse us for any costs and expenses which we may incur which are directly attributable to you. These charges may include (without limitation) the costs of providing information to third parties (such as your accountants or auditors), valuations, or our involvement in legal proceedings brought against you.
